

FGS100GRW

Ismaskin, krossad is, max produktion 100 Kg/24h

Produktgrupp	Ismaskiner
Tipologia	Krossad is

TEKNISKT ARK

DATI TECNICI

Outside dimensions (WxDxH): 496x660x800/850 mm

Power supply / Total power installed: 230V 1N 50Hz / 650 W

Weight (net/gross): 76 / 84 kg

Inlet water pressure (min / max): 1 / 6 bar

Max inlet water temperature: 32°C

Refrigerant gas used: R404a CFC-fri

Maximum daily production (2): 100 Kg/24h

Cube type / Weight: Krossad is

Ambient operating temperature (min / max): 10° / 43°C

Ice container capacity: 25 Kg

Cooling system: Vatten kylnings system

Recessed door for access to the reserve ice container

Ice container in thermoformed plastic, insulated with high density polyurethane foam

Backlit On/Off switch placed in the front area

Refrigeration unit located on the structure base with condensing unit made up of an hermetic compressor
